The Tastemaster

About us

When a family came together after years of pursuing different careers in their respective lives, there was one more thing common among us besides the desire to do something extraordinary. We realised we had all come a long way leaving behind a bit of ourselves, our lives, our dreams. Tastygram Spices from IXI SERVE LLP is an attempt to take you back to your fondest memories.

Putting the heart and desire back in business, our company offers you a vast range of authentic cryogenic spices full of aroma, Flavour, and natural nutrients from across the Bharat to meet your daily needs of kitchen at rates you'll love.

Our main Objectives is to ensure our end user with the quality of the product by maintaining the medical properties, essential oils, flavour, colour, and aroma processed at sub-zero temperature by using Cool Grinding Technology. For us, quality is our utmost priority. Our Good Manufacturing Practices deliver the safe and quality products to our end users.

TASTY GRAM

A Brand by IXI SERVE LLP

We use Cool Grinding Technology in Spices with Zip Lock Packaging Keeping the spices fresh from production to home. Cool grinding technology preserves the natural components, Flavour and aroma of spices which is not possible to process in normal grinding technology.

We work on the same principle for all our products to add value to your life. Along with the advanced technology we also make sure that products are manufactured, packed, stored and transported under best hygiene and international quality standards which is possible through regular quality check-audits on regular basis.

Our Vision

To be a company that seeks to manufacture high-quality and wide-variety products for different markets, which satisfies the needs of customers. To become a modern company in constant improvement and growth that uses all the means at its disposal to offer a quality product in a competitive way at the national and international level.

Our Objective

Our objective is to satisfy our clients with authentic aromatic spices, with the strictest international quality standards; delivered on time, at a reasonable cost around the world.

Our Mission

To provide safe and Quality products to our customers which can be part of our Promoters and end user families. Manufacturing quality product will be the main objective of the company's efforts, hygienic and natural raw material procurement from farm and processing at our plant with good manufacturing practices.

Another main objective is to join hands with backbone of our country - our farmers in backward integration program and deliver the best price of their efforts along with helping the farmer families- villagers in getting job opportunities for their better life and career.

THIS IS HOW WE PUT HEALTH FIRST

Source from the **India's best fields**

It all starts from sourcing only the finest Ingredients across the india. At **Tastygram** we strive that only the best ingredients make it into our packs. For example, we carefully select our Turmeric from sangali Maharashtra, Chilli from Guntur and Corinader from Rajasthan (largest and best quality Corinader producer of India), rest spices form south india.

All **Natural** Ingredients

We belive that being natural has real benefits, which is why our products are made without adding anything artificial. We ensure that the nutrition in our products is derived from a natural source. Even the fenugreek leaf, pomegranate seed, garlic, Tamarind, we use in our product, is free from any artificial flavors and colour because we buy whole product and dehydrate them in plant and make powder to use in our spices to maintain quality. **Tastygram** buy some of our product from reputed MNC of india.

Committed To **Quality**

At **Tastygram** exceptional care is taken at every step, right from the sourcing of our ingredients to carefully processing them to ensure that only the best of what we make, reaches our Consumers, which is 100% Lab Tested. We've transformed our production processes with the introduction of new technologies and our complete focus towards in-house research and development. We constantly strive for new benchmarks in quality management and most of our groups state-of-the-art manufacturing facilities. Our group has a lineage of over 22 years in different business in which product development, quality management and innovation have been the cornerstones of our success. We also supply our product in bulk to superstore chain, hospitality and commercial institutions.

Ground Spices

Hygienically Packed

Low Temperature Grinding

No Artificial Colors

Spices are the common thread that bind us together in a country with multitudinous traditions and cuisines. Indian food had always been rich in flavour and aroma and the reason for that is the discreet use of spices. These spices not only enhance the flavour and aroma of the food but have numerous health benefits as well. Ground Spices from **Tastygram - Product by IXI SERVE LLP** serves the same purpose and is very easy to use, even a pinch of it will add a touch of magic to your favorite dishes.
